

CSC790: Deep Learning  
Fall 2020, Project Final Report  
Due Date: Thursday, December 03, 2020 at 11:59 pm (on  
blackboard) (100 points)

**Abstract:**

- Briefly describe the problem, the method and the results.

**Introduction and literature review:**

- Provide more detailed description of the problem and why this problem is important to solve.
- Provide related work related to the problem you are solving. (at least 12 references)

**Background:**

- Introduce the tools you are using to solve the problem.

**Methods:**

- Describe the methods/procedures you used to solve the problem.

**Results:**

- Describe and analyse your results.

**Conclusion:**

- Summarize your work, results and future improvements

**What did you learn:**

- Each team member should describe what did she/he learned in this project.
